

QS 1881 GT

2350 CHU

- Tall hybrid with excellent early vigour
- Great plant health for quality silage and grain
- Excellent root and stalk strength
- Consistently good test weight
- Excellent on all soil types and yield environments

Hybrid Seed Corn

PRODUCT CHARACTERISTICS

Emergence	8	Trait	GT only
Seedling Vigour	8	CHU	2350
Root Strength	8	Relative Maturity	81 days
Stalk Strength	9	Planting rate	32-36,000
Drought Tolerance	7	Ear type	Semi-Flex
Staygreen	8	Plant Height	Tall
Test Weight	8		
Goss' Wilt	8		
Northern Corn Leaf Blight	7		

POSITIONING/PLACEMENT

QS 1881 GT has excellent harvest appearance and top end yield potential for overall tonnage and grain content. It will show great performance on all soil types.

Legend:

- 1 = Poor 9 = Excellent
- GT = Glyphosate Tolerant
- CB = Corn Borer
- LL = Liberty Link
- BL = Broad Lep
